The objective of the tender published is to improve the long-term structural resilience of Afro-Feminist Civil Society by strengthening selected Civil Society Actors through institutional and financial resilience in particular through local contributions and capacity building support.

Strengthening long-term structural resilience is central to maintaining the operational capacity of Afro-feminist civil society and enabling or preserving its ability to act independently and sustainably. Structural resilience encompasses stable organisational processes, diversified resources, protection mechanisms against an increasing gender backlash, regional networking and strategic planning, as well as the ability to withstand political pressure, financial fluctuations, or security-related risks also for individual CSO members.

The objective will be achieved through two different capacity development pillars:

1. Through the (technical) advice and guidance provided for the successful implementation of the local contributions based on GIZ requirements, the local recipient should gradually build up the managerial and administrative capacity to independently perform the tasks associated with the commercial, administrative and legal implementation and processing of other financing arrangements.
2. External capacity development support by local service providers for areas identified in the proposals.

2. Scope of work

In order to achieve this objective and the associated development results, the Contracted Party undertakes to perform the services and achieve the results listed in the terms of reference and specified in detail in the Contracted Party's tender.

In this context, the Contracted Party shall comply with the requirements specified in the contractual documents (with particular reference to the ultimate commissioning party's strategies and documents attached to the terms of reference as an annex).

3. Start of the contract, performance period and place of supply

- 3.1 The contract comes into force upon notification of its award. The anticipated performance period begins in November 2026 and ends on 31.03.2028.

The final performance period will be specified in the contract award notification. In the event that it diverges from the anticipated performance period, the contract value may not be called in its entirety.

- 3.2 The Contracted Party performs the work/service for GIZ in Germany. In accordance with Section 3a, Paragraph 2, Sentence 1 of the German VAT Act (Umsatzsteuergesetz – UStG), the place of supply for VAT purposes is therefore in Germany.

4. Plan of operations

At the start of implementation and annually thereafter, the Contracted Party shall submit a plan of operations in text form to the GIZ commission manager for approval. Amendments to the plan of operations require the prior approval of GIZ in text form.

5. Procurement of materials and equipment

– Not applicable –

6. Payments

The agreed remuneration shall be paid as follows:

- 6.1 Advance payment

Advance payments shall be made upon request for payment in text form no later than 15 days after the end of the calendar month in which the contractually agreed work was started.

The provision of any advance payments and their amount and terms of repayment shall be specified in the contract award notification. In the event that security is required, this shall be mentioned in the contract award notification.

- 6.2 Settlements and interim invoices

The Contracted Party shall submit an interim invoice to GIZ for services actually provided every three months after the start of the contract. No further interim settlements may be

applied for outside these intervals. The number of interim invoices in addition to the final invoice for this contract will be specified in the contract award notification.

- 7.3 If funds are to be transferred to the country of assignment for procurement and local contributions, the Contracted Party shall open a special bank account. Any charges incurred in this respect shall be borne by the Contracted Party.

With each interim invoice, the Contracted Party shall submit bank statements that document in full the transfer and exchange transactions into local currency.

7. Options or follow-on contract

- 7.1 Pursuant to Section 7 in the terms of reference, GIZ reserves the right to exercise options or enter into a follow-on contract

8. Price adjustment clause

- 8.1 This price adjustment clause shall apply when contracts are extended, provided that the Contracted Party has requested this in text form prior to the conclusion of the contract extension and both of the following requirements are satisfied:

- i. The contractual term is extended by one year or more.
- ii. The contract value increases by 10% of the original contract value or more.

- 9.2 If the price adjustment clause set out in the above paragraph applies, the agreed fee rates shall increase as follows either from the date of the contract extension or from the 25th month of the contractual term, whichever occurs later: The fee rates agreed when the original contract was concluded are increased by the sum of the percentages of the individual linear pay increases under the Collective Bargaining Agreement for the Public Service at federal government level (*TVöD Bund*) since the conclusion of this contract. Special payments of any kind, including but not limited to one-off payments, as well as basic amounts and minimum amounts are not taken into account here. Only those pay increases that are already directly applicable at the time of the contract extension are taken into account, not those that have been agreed for the future.

- 9.3 The agreed fee rates may be increased again at the earliest at the end of a further period of 24 months after the previous increase has taken effect, provided that the Contracted Party has requested this in text form prior to the conclusion of the contract extension and the requirements specified in the above paragraphs are satisfied. In this case, the fee rates are

increased by the sum of the percentages of the individual linear pay increases under the Collective Bargaining Agreement for the Public Service at federal government level (*TVöD Bund*) since the last adjustment of the fee rates. In all other respects the provisions of the paragraphs above shall apply.

- 9.4 In the case of follow-on contracts within the meaning of Section 14 (4) of the German Ordinance on the Award of Public Contracts (VgV), paragraph 2 of this section shall apply *mutatis mutandis*, provided that the original contract has been in force for two years or more without interruption, the contract value is 10% of the original contract value or more and the follow-on contract has a term of one year or more.
